

Raj Ojha

Frontend Developer

I'm a driven and innovative Front-End Developer intern at Solitaire Infosys, where I enhanced user experience and collaborated on sleek UI designs. Skilled in HTML, CSS, and responsive web design, I contributed to agile teams, ensuring the delivery of high-quality web projects. My work demonstrates a blend of technical proficiency and teamwork.

Projects

Project Name: Netflix Clone

Developed a UI clone of Netflix, utilizing HTML, CSS, and JavaScript to replicate the design and functionality, enhancing my skills in layout and responsiveness.

Project Name: Portfolio

Designed and developed a fully responsive portfolio website using HTML, CSS, and JavaScript, highlighting my frontend skills and showcasing my projects with interactive elements.

Project Name: School Diary 24

Worked on a project of Solitaire Infosys on School Diary 24 to create and develop the frontend part. In this project, I contributed my skills to enhance the user interface and maintain it.
